VOLUME TWENTY, NO. 7.

UPLAND, SAN BERNARDINO COUNTY, CALIFORNIA, THURSDAY, JULY 2, 1914

\$1.50 PER YEAR

MAYOR'S BOOK KEEPS CITY OFFICIALS ON THE LOOK OUT

C. W. Hall Resigns As Motor Policeman

Eleventh and San Antonio Property Owners Want Their Streets Improved. Council Spends a Busy Evening.

Mayor Woodbridge carries in his pocket a little book which is doing more for the city than any other one thing, and that book keeps committees and city officials on their toes, as it were, when it comes to looking after city business.

Each committee and what they are to do, each order and what city official is to carry it out, is put down in that book and when it is the proper time the Mayor calls the roll, as it were, and thus city business is looked after with a far more systematic care.

Some of the committees were found wanting last night, and now that they know the operation of that book they will attend to the details which often go neglected.

Motor Cop Resigns
C. W. Hall, who for some time has been Upland's motor cop, resigned last night, his resignation being accepted. A successor was not appointed last night, and who and when Upland will have another is uncertain.

Want Street Improved
Kirk Vernon presented a petition to the council last night requesting the improvement of San Antonio avenue with curbs, roadway and gutters. After considerable discussion the street committee was asked to report on the matter at the next meeting, but indications are that the work will be carried out.

The Recorder's report, the Marshal's report and Street Superintendent's report were filed and accepted by the board last night.

Wanted to, But Couldn't
The council wanted to do several things last night but couldn't on account of a shortage of finances. They wanted to buy several more seats on which those attending the band concerts might rest, and they also wanted to send the band to San Bernardino on opening of the P. E. line, but gave up both wants and appointed Councilman Johnson to see that it was done without cost to the city. Mr. Johnson is now busily engaged unraveling a difficult problem, but he states it's a snap, as he has nearly enough money now.

THE JOKE IS ON MR. S. V. HORTON

They turned the laugh on Supervisor Horton Monday when it developed that after all the burrah about liquor in the prisoners' camp at Mill creek, that rancorous member himself helped haul the booze up to his cousin, Captain Covington, whom he had originally imported from Los Angeles and employed as a guard in the camp, and which liquor caused all the trouble. It seems that Covington sent to San Bernardino for the booze, had it delivered, carefully packed to conceal identity, of course, to the county jail, and from the jail it was hauled up in the county truck and delivered to Covington. Then some of the prisoners got hold of it, one filled up and fell into the creek and was nearly drowned, and no end of trouble followed.

It developed that originally Deputy Sheriff Jones, in charge of the camp, had a small bottle of liquor there for emergencies, and once when Covington said he was ill and needed it, Jones gave him some. For this, and for later taking a drink of Covington's liquor, Deputy Sheriff Jones was removed from his place at the camp, but when Sheriff Ralphs became aware that he was officially responsible for the camp, he immediately reinstated Deputy Sheriff Jones, because of his ability as an officer, and because he wanted some one there in whom he had full confidence.

Supervisors Jones and Horton, who have been looking after all the road camps more or less, Monday reported to the supervisors, recommending that Sheriff Ralphs be requested to replace Jones with some other deputy.

Says Jones is Good Man
Sheriff Ralphs has not announced his policy, further than to say that he will not fire the deputy, although he may move him to another camp. "Jones is a good man,"

(Continued on Page 4)

COMMITTEE FROM COUNCIL ADVISES ISSUANCE OF BONDS

MASS MEETING TO BE CALLED TO CONSIDER A BOND ISSUE OF \$40,000.00 FOR STREETS CITY HALL AND FIRE DEPARTMENT

A committee recently appointed by Mayor Woodbridge from members of the council with C. V. Lambrigger as chairman of the committee, made a report at the council meeting last night. The work of this committee was to find ways and means of caring for streets already improved, betterment of fire equipment and general good of the city.

As the result of the work of that committee a mass meeting is soon to be called at which time the people will be asked to discuss a bond issue approximating \$40,000, with which to purchase equipment for a street building plant as well as to repair streets; to purchase a combination chemical and hose fire truck, together with additional equipment, such as hose, hydrants, etc.; to build a city hall with a house for the fire equipment at the rear.

The committee has lined up the issue as follows:
For street repair and additional equipment, \$15,000.00.
For fire equipment, \$10,000.00.
For City Hall and fire barn, \$15,000.00.

Councilman Lambrigger explained that he and the committee had spent a considerable time endeavoring to find a way by which the city work might go on unhindered and as he believed the majority of the people of the city wanted it to go on. The general fund of the city has simply proven inadequate to take care of the many things needed and absolutely necessary, and he believes there is but one thing to do, and that is to ask the people to issue bonds for the sum of \$40,000.00, as above outlined.

At the present time Upland has a bonded indebtedness of \$55,000.00, which is very small, considering the valuation of the city. In figuring out the cost of the issue to property owners the council found that for each \$1000 valuation it would cost the sum of \$1.71, the first year, and that is to ask the people to issue bonds for the sum of \$40,000.00, as above outlined.

HOW TO WIN TROPHY OFFERED BY Y. M. C. A.

Field Secretary Maxwell of the county Y. M. C. A., has a plan under way which promises to bring good results for the association.

Recently J. S. Armstrong offered a trophy in the shape of a loving cup to the group of boys of one association doing the best work and following will be found an explanation of just how the cup is to be awarded. The contest runs from June 1 to June 1, Ontario now having the cup.

This going determined by a report system and in order to count for the cup, weekly reports are required, and must be made out by the proper official on the report card and sent in promptly. The group winning the most number of points by June 1 will be awarded this beautiful cup, and may keep the cup until June 1 the following year, when it shall be awarded as in the previous year.

1. Attendance: The percentage of attendance in proportion with enrollment in each group shall be determined by an average taken of all such groups.
2. Bible Study: The group taking up Bible Study will be awarded 50 points.
3. Educational: The group taking up some phase of educational work will be awarded 50 points.

4. Social or Physical: The group taking up either social or physical work, or both, will be awarded 20 points.
5. Deportment: Points will be awarded on the percentage basis.

A final test will be conducted by the Educational committee, the last of May. This test to be in the form of a letter writing contest, each boy writing a letter setting forth in detail the work accomplished. The points on this work to be determined and awarded by the committee.

Relative standing of the groups contesting for the trophy cup offered by J. S. Armstrong:
Ontario—B. E. Galloway.....3630
Chino—O. L. LaFevre.....2234
Bloomington—Rev. G. L. Marsh.....2177
Ontario—E. J. Sanford.....2177
Upland—L. D. Smith.....1767
Upland—S. E. Kirk.....1356
Chino—Clarence Butterfield.....1143
Ontario—Carl Sheldon.....783
Rialto—Sam Nealey.....735
Chino—Winthrop Cox.....703
There are in all 18 groups of boys working in this contest, making a total of 200.

Councilman Lambrigger, as well as other members of the council, stated last night, that if the people of the city desired their town to improve and go on toward better things that this issue was absolutely necessary, and he believed that if a mass meeting could be called and the needs of the city explained to the people that they would readily see the advisability of it.

The estimate as outlined gives to the city a road roller as well as other equipment, which gives to the city a street building plant and many other implements necessary in the building and upkeep of streets.

In the fire department estimate the \$10,000 will be used to purchase a hose and chemical fire truck, while on both the Citizens' Land and Water lines, as well as on those of the Ocean View company many new hydrants are to be placed. Fire Chief Manker stated that in conversation with W. E. Beattie he learned that the Stewart interests were planning on running a line down Mountain avenue in the very near future, and that with this line in and with the line on Euclid avenue, fire protection could be given to residents of the entire length of the avenue, while those on the west side streets could be given protection from the Mountain avenue line.

The need of a city hall is growing every day, and as it is going to be necessary to house the new fire equipment in suitable quarters and it must be placed on city property, proposed plans have been drawn and will be submitted to the people at the mass meeting which will be called within a short time. It is estimated that a new city hall, somewhat similar to the design of the library and facing on D street, with the fire barn in the rear, will cost in the neighborhood of \$15,000.

Following the mass meeting the council will decide whether or not an election shall be called, at which the people may vote on the bonds. It is the aim of the council to carry out the wishes of the people, and Mr. Lambrigger and his committee stated last night that the issuing of bonds was the only way they could see by which the many things desired by the people could be had.

A MOUNTAIN SCENIC HIGHWAY NAMED BY SUPERVISORS

"San Bernardino Mountain Crest Highway"

That's its official name, duly bestowed at the christening of the office of the board of supervisors Monday, with plenty of sponsors standing around, and about 300 names submitted from which to select the real name for the finest road in the finest mountains in all the west.

Here at home, doubtless it will be the "Crest Highway," for the sake of brevity and because local people know it is the feature of the San Bernardino mountains. But in all the advertising literature that is sent abroad, and when it is desired to give the road its full title, nothing but "San Bernardino Mountain Crest Highway" will do.

And who gets the \$10? Well, nobody gets it, for the reason that the name finally chosen is not exactly the one submitted by any of the numerous contestants. Perhaps not less than 300 were submitted, in response to the notice given that the supervisors were hunting for a proper name for this magnificent mountain drive.

But a number of them were close, although the supervisors held that "a miss is as good as a mile." At least three of those submitting names were "within the money" except for the last word finally chosen. If it had been "drive" or "road" instead of "highway," W. M. Parker, as president of the chamber of commerce, W. M. Bristol of East Highlands, and Miss Helen Porter of this city, would have split the award. They each suggested "San Bernardino Mountain Crest Drive," or "San Bernardino Mountain Crest Road."

Were Many Names
Without knowing by whom the names were suggested, the entire list was read over, and then the supervisors discussed the question, finally deciding on the name featured above.
The Pioneers were close up with the suggestion of "San Bernardino Scenic Highway," and John Brown argued for its acceptance, but argued.

ONTARIO DEFEATED IN GAME WITH THE UPLAND TWIRLERS

Upland Getting to Front In the League

Clark's Upland Baseball Team Proves to Ontario Boys that "Punch" in National Game is Absolutely Necessary.

Before a large and enthusiastic throng, which taxed the seating capacity at Chaffey Union to the utmost, the Ontario diamond representatives went down to defeat before the local team last Saturday by the score of 15 to 4. The size of the crowd proved a strong incentive to the contesting teams for a supreme effort.

Upland was out to even up old scores with her old-time rivals. A glance at the box score will show how thoroughly Ontario's downfall was wrought. Her collection of balls was completely out-played and out-batted by the local athletes. With his Riggs hurled for Upland and was unhittable up to the sixth, one safe being the sole result of Ontario's efforts up to that point.

Upland was out to even up old scores with her old-time rivals. A glance at the box score will show how thoroughly Ontario's downfall was wrought. Her collection of balls was completely out-played and out-batted by the local athletes. With his Riggs hurled for Upland and was unhittable up to the sixth, one safe being the sole result of Ontario's efforts up to that point.

With second and third occupied and none out, Riggs was given the hook, and the S. O. S. flashed to Earl Swan for relief duty, and right nobly did the lanky one fill the breach, fanning three batters in a row and refusing to allow a safe hit the balance of the game. Swan's good right arm seems to be in the pink of condition, and by the same token Upland's chances for the tag seem a great deal brighter.

Kirk, Ontario's first deal mauler, was greeted in hearty fashion and was driven from the hill in the opening canto. Dossinger then took up the burden and twirled nice ball up to the fifth inning, he in turn giving way to Burris, the Puente crack, the latter being found for six hits and four runs.

Dahlen was the boss club swinger for the victors, getting three nice clean hits, giving his average a substantial boost. McAnis, who in former days starred for the Beaver Falls and Rochester, Pa., teams, held down the initial sack, for the locals to the great delight of his many admirers. Buzz showed he still retained old-time cunning, hitting the pill for a clean home run drive with two men on base, and making a neat bunt, besides covering first in faultless style. Buu Craig also secured two hits, one being his usual three bagger, off Burris, a no mean feat.

Cupid Manker, the first to face Kirk, got a pass; Fetrow grounded to Bogart, who fumbled; Cupid grounded to third; Swan singled to left, Manker paying off and Fetrow going to third and Swan to second on the throw to the plate; Bryden whiffed but McAnis picked a fat one to the right center for a home run clearing the sacks; Dahlen singled to left, Craig ditto to right; C. Riggs popped to second and W. Riggs hoisted to short.

Fetrow opened on Burris in the fifth with a hit and took second on Kustel's error. Swan walked; Bryden hit to center scoring Fetrow; McAnis was purposely passed, greatly to that worthy's wrath; Dahlen hit to Burris, who threw to Kustel forcing Swan; Bryden scored on a passed ball; Craig fanned and Carl Riggs followed suit.
Upland got her final tallies in the sixth. W. Riggs got a pretty single to left; Manker singled; Fetrow fanned; Swan hit to Van Alstyne, who threw to second forcing Manker, but Bogart's relay to Phelps to complete the double, went wild. Riggs scoring on the error while Swan pulled up at second; thence to third on a passed ball, Kustel's third offense and registered on Andrew's miff of Bryden's sky-scraper. Ontario scored all her tallies in the sixth and might have evened up the

AT A COST OF \$1,250,000 THE SAN BERNARDINO LINE OPENS

JULY 11TH IS THE OFFICIAL DATE FOR THE OPENING OF PACIFIC ELECTRIC LINE TO SAN BERNARDINO. BIG CELEBRATION

The San Bernardino extension of the Pacific Electric will be opened to traffic July 11th, a week from next Saturday, according to an announcement made by President Shoup of that road on his return from San Francisco.

Constructed at a cost of \$1,250,000 the extension bulks big both as the longest stretch of high-speed electric mileage on this side of the continent and as the instrument by which frequent and rapid service will be assured between the queen city of the Southland and the municipality aptly designated as the "gate city to the summer land."

Los Angeles sits in the midst of a great mesh of electric lines, the acknowledged empress of a wide domain. Here is a beneficial reign, of which the most conspicuous element is the ready intercommunicating facilities which the trolley lines offer to its 1,000,000 or more inhabitants.

Southern California has seen perhaps the most consistent development in interurban facilities of any part of the country. The San Bernardino extension is a fresh example of this.

There are very few towns of any size between Upland and the present eastern terminal of the Pacific Electric and San Bernardino. Consequently, the so-called city stops, will be few. This being the case, all the cars of the San Bernardino line will be keyed up to 1200 volts, which is twice the voltage under which the Pacific Electric operates its cars on its existing lines. This means high speed.

Further, toilets will be an adjunct of the San Bernardino cars for the first time in the history of the road. Twenty cars are now being rebuilt in the shops here for the new line.

These cars will be mere make-shifts as President Paul Shoup stated Saturday that an order will soon be placed for forty-five new cars for the new line, to cost in the neighborhood of \$675,000, or \$15,000 apiece. These cars will be all-steel, non-telescopic construction, and will seat sixty persons each.

JESSE E. BYER HIT BY STREET CAR AND DIES OF INJURIES

After working the entire winter and thus far this summer to earn and save enough money with which to purchase a motorcycle, practically the first long trip on the machine resulted in the death of Jesse Byer, 19-year-old son of Mr. and Mrs. Byer of this city, at Whittier Sunday morning at 10 o'clock, when he collided with a Seal Beach two-car special train of the Pacific Electric running over the Downey boulevard, bound for Los Angeles.

Jerry had owned the motorcycle for about one week, and he and Jack Lee decided that on Sunday they would take the trip to Long Beach, where they were to meet friends and enjoy the day.

As they neared the crossing of the Pacific Electric, Lee was a half block ahead of Byer. Just as Lee crossed the tracks the wigwag commenced to operate. Knowing that Byer was new at the motorcycle riding, Lee turned about on his seat and mentioned to Byer to stop. Lee states that Byer turned off his power just as the motorman on the approaching train began to blow his whistle for the crossing. This evidently confused Byer, who, instead of turning off his power, turned the handle the wrong way, with the result that the car struck the front wheel of the motor, carrying it 100 yards down the track, while Byer was thrown to the gutter. The injured man was immediately picked up and carried to the little station at the crossing.

(Continued on Page 5)

score but for Swan's injection into the game at that juncture as slalman. Bogart walked and swiped second; Van Alstyne singled to center, the relay to catch Bogart at the plate went wild. Van pulling up at third, Dossinger singled, Van paying off; Phelps walked, Sanders tripled scoring Dossinger and Phelps. Harlow walked and stole second. With none down, Swan was hustled onto the hill and retired the next three men on strikes and Ontario's chance went aglimmering.

Next Saturday, Fourth of July, Upland crosses bats with Cucamonga and a hot battle is anticipated.

The service as a starter will be ten trains of two cars each in each direction daily. The schedule is now occupying the attention of Pacific Electric traffic officials. As soon as the new cars are received the service will be of added frequency.

The auxiliary station in the rear of the Main-street depot will be the terminal here. Cars will proceed from there to Seventh street and to the turn to the San Pedro-street line. When the proposed elevated is erected the cars of the San Bernardino line will be brought into the main station.

Future Extensions
An eye to the future was evidenced in the construction of the line. All bridges are of concrete arch construction, with provisions for additions when the growth of traffic will necessitate putting a second track in operation. The line also goes over country and city highways when possible, so that the number of grade crossings is reduced to a minimum.

The completion of the San Bernardino line by no means includes the whole of the Pacific Electric's work or projected improvements to the eastward. Authorizations have been obtained from the State Railroad commission for the expenditure of \$105,000 on the San Bernardino-Highland line, \$43,000 on Redlands-San Bernardino line, and San Bernardino line. Part of this work is under way. There has also been \$53,000 expended on the Covina-San Dimas line and \$25,000 on the Upland-San Antonio line.

As the State Railroad commission recently granted the Pacific Electric permission to construct a double track over the Salt Lake on Magnolia avenue, Riverside, it is evident that the work is to be carried through, which will bring Riverside into close connection with Los Angeles. Eventually, the line will be extended to Corona, and then, perhaps, around in a loop to a connection with the La Habra line at Stern, this affording two means of access to Riverside and San Bernardino.

JUDGE OSTER WILL NOT BE A CANDIDATE

Judge F. F. Oster's approaching retirement from the bench of the Superior court, announced Friday was the surprise of the year in a political way, and created nothing less than a sensation in both legal and political circles. Judge Oster's long service on the bench and his uniform political success when he has been a candidate in this county, had led people to take it for granted that he would again be a candidate for the bench, and from all parts of the county came expressions of astonishment at his voluntary retirement.

The announcement had the instant effect of starting discussion with reference to other possible candidates, and no less than four new names have since been mentioned, in addition to those of J. W. Curtis, former Judge John G. Campbell, H. M. Willis and Halsey W. Allen of Redlands. The four new names discussed were those of F. A. Leonard, C. C. Haskell, W. E. Byrne and District Attorney H. B. Goodrell. The two latter immediately eliminated themselves by declaring that under no consideration would they be candidates, and after some consideration Mr. Leonard did practically the same thing, but only after numerous people had volunteered their support. As he was leaving for his home in Redlands last night Mr. Leonard said he would not be a candidate. Mr. Haskell late last night admitted that numerous friends had suggested to him that it was the possible opportunity to gratify the ambition experienced by every lawyer to sit on the bench, but that at present he had no announcement to make on the subject.

Friends of Mr. Curtis declared that the retirement of Judge Oster very greatly strengthened his candidacy, and they were pleased accordingly.

OBITUARY

Jesse Engle Byer was born at Glendale, Arizona, July 5, 1895. Died June 28, 1914, at Rivera, Cal. He lived in northern Michigan with his parents for near ten years and attended school there. In October, 1911, he came to Upland with his parents. His occupation was packing fruit.

ARRIVES SAFELY

M. E. Hill received word from Ernest Fischer this week that he arrived safely in Chicago and was enjoying a delightful time with friends and relatives there.

PALMER RESIGNS AS PRESIDENT OF COMMERCIAL NATIONAL

Sixteen Years Service As Bank Official Ends

After Six Months of Complete Rest, Mr. Palmer Will Again Put His Shoulder to the Wheel for Good General Good of City.

After sixteen years of faithful service to an institution which more than any other one factor in the city has been the means by which the city has gone to the front, M. F. Palmer, widely known throughout Southern California, has resigned as president of the bank because of ill health and a desire to get out of doors and away from business cares. Mr. Palmer, knowing that the business of the institution is in capable hands, he feels satisfied that the bank for the success of which he gave up the best part of his life, will be carried on along the lines of good, substantial banking operations.

Mr. Palmer came to the city when cow paths marked the well laid out and curbed highways of the present day. He came here when from the Santa Fe north there were more woods—some of them four foot tall—on the lots now occupied by business blocks, than can be found in the entire city at this time.

Mr. Palmer came here from Iowa and immediately became cashier of the Commercial Bank. And he was not only cashier, he was the entire working force from cashier to book-keeper, and in the early days even did the janitor's end of the work. Steadfastly he stuck by his work, and just as steadfastly did the Commercial National Bank grow, reaching its zenith in business in the year 1912, when its total deposits aggregated a half million dollars.

Thus is told in a few words the result of the effort of a man who had the tenacity to win, and building up a bank from its inception is one of the most arduous undertakings known to man. Today the bank stands as a monument, as it were, to the good work of Mr. Palmer, who, believing it for the best interest of his health to retire, has turned the work over to men of experience who

(Continued on Page 8)

INVITATION GIVEN UPLAND PEOPLE

San Bernardino City is to be the royal host on Saturday, July 11th, when the Pacific Electric will be officially opened for regular service between Los Angeles and the Gate City, and many in Upland are planning on spending the day at San Bernardino and Urbis Springs.

The News has just received the following letter from Judge F. F. Oster, who is chairman of the joint committee of the Merchants' Protective Association and the Chamber of Commerce, in which he says:

Dear Sir:
On Saturday, July 11th, there will be celebrated here the completion of the Pacific Electric Line from Los Angeles to this city. On that day San Bernardino expects to keep open house and invites all Southern California to participate with her in the celebration of this epoch-making event. An elaborate program consisting of addresses by prominent speakers, high-class vocal and instrumental music and various games and sports, is in the process of preparation; of this more definite information will be furnished later on. The people of San Bernardino, acting through their Chamber of Commerce and Merchants' Protective Association hereby extend to your citizens generally a most cordial invitation to be present on this occasion. Should any of your commercial organizations desire so to do, opportunity will be given them to distribute any literature by which they may have, boosting your particular section; and if your people wish in any way to do any special advertising, by brass band or other special features, we shall be glad to have them do so. We desire the occasion to be characterized by the "get-together" spirit between the different communities of Southern California, and assure you that the day will be replete with fun, frolic and the homely features of old-fashioned hospitality.

Come, bring your wife and kiddies, (likewise your band, if you so desire) and have a good time with us. Yours very truly, FRANK F. OSTER.

THURSDAY, JULY 2, 1914

CALIFORNIA increased 190,279 in population from July 1, 1913, to June 1, 1914, according to the figures just furnished by Secretary of State Frank C. Jordan and taken from a canvass of the different counties on population statistics. These figures show Los Angeles county to lead the state by a wide margin, the increase here having been 33,806 in the time it took San Francisco to gain 7607. Mr. Jordan places the total of this county for last year at 612,592, and this year 646,398.—Redlands Facts.

SCIENTISTS and nerve specialists may insist that a man can exist just as well on a few hours' sleep, say four or five, as he can on seven, eight or nine, but human beings will do well to consult their own feelings and take as much slumber as they feel they must have in order to preserve their health. Some very active brain workers may be able to get along with little sleep; but if all the facts concerning their health and length of life were obtainable it would be found in most cases they would have been stronger physically and mentally if they had conserved their vitality by indulging in more rest. Sleep is still Nature's sweet restorer, and it is not wise to ignore its beneficial effect on the body and mind.—Boston Globe.

EDITOR RICHARDSON of the Pomona Progress is strong on sound arguments and his readers look forward to his daily writings with much pleasure, for they are filled with many good points. To other day we read one of Editor Richardson's best, which was on the subject of wearing a smile in hot weather to forget the heat, the idea being advanced by no less a personage than a daughter of President Wilson. We agree with Brother Richardson that wearing a smile is excellent in hot weather, but there are many people who do not tan in the sun's rays, but rather burn. Some skins are tender, and how in the world a man or woman could wear a smile and forget the heat with his or her hide burned to that glowing red degree, is beyond our comprehension. The argument is good, however, in spite of the laws of the land.

IT ISN'T wealthy men who are idle, but wealth itself, which is permanently loafing.

Every year hundreds of millions of cash go into retirement for all time. One battleship lays on the shelf fifteen million dollars of good money and it stays there. Germany's extra army measures the last year put one-quarter million dollars out of business for good. New York City's debt is increasing at the rate of sixty-five millions a year. Nearly all of that money is expended upon non-productive work. Monuments, boulevards and works of art, such as one-half million dollars in pictures, each year cost the world about as much as the world digs gold out of the earth. These are idlers who never earn any direct interest on the investment. America's wheat crop this year isn't half big enough to compensate for the wealth that in 1914 will be poured into non-productive works.—Philadelphia Public Ledger.

NOW father is going to have another day in spite of the fact that he just had one. Fourth of July comes just once a year and on that date father must show his children what a brave man father is. That being the case, he buys about ten dollars worth of firecrackers, roman candles, sky rockets, etc., and goes forth as did the warriors of old, to observe a sane Fourth of July. All of this on account of the Declaration of Independence. The usual result of father's attempt to celebrate the Fourth of July is that all of the fire works is set off in a lump sum, and father forgetting himself and his bravery for the moment, runs to shelter, while roman candles, sky rockets, etc., shoot toward the admiring family with a recklessness that would put the modern day aviator to shame. After the explosion is over father saunters forth and proceeds to prove himself, "the best little explainer" in the neighborhood.

AS THE WORLD goes on it has been found that man is still inclined to be human. The Giver of all things gave to man two eyes, and if you watch the majority of men you will find that with one eye they have a vision which is far different from that of the other. For instance, with the left eye man sees himself stepping steadily down the straight and narrow path; he sees himself as he thinks everybody else does—a noble creature, too good to mix with the ordinary mortals, and to his mind comes that selection from the "Village Blacksmith," "he goes to church on Sundays," etc., etc. But out of the right eye that self-same man sees in another direction and the path which from the left eye looks narrow, widens out with now and then a tendency to overdo the widening. He sees the world with its beckoning hand, and once in a while he goes to a good show, not because of the chorus girls, but you know, the music is always good. Then sometimes he goes to the restaurants where they have music while you eat, and once in a while you hear a cork pop—but he doesn't go there because the swiftest dressed women go there—not he; he goes to eat. Man is put up on a most peculiar construction, but it is certainly a good thing that he has two visions, for if he didn't he would be bound to get narrow, and be riding some pet hobby for amusement and recreation.

EDITOR GILSTRAP of the Alhambra Advocate received the following from one of his readers last week and his answer may prove of interest to readers of The News:

"Will you kindly explain to me the meaning of the anti-trust bills that have been passed by congress and those now before that body?"

Of course I was much surprised to know that these measures are not fully understood by everyone, but I will take time from my otherwise arduous duties to give you a little enlightenment on the subject. The anti-trust bill means that cash and not conversation will be the only medium of exchange for articles of merchandise and other commodities. For instance, I went to my grocer the other day and said: "Give me 3 cents worth of sugar, 7 cents worth of land, two biscuits and a cookie. Send the bill to me the first of next year." He was very nice about it and said my credit was good for anything in the store, but owing to the anti-trust bill he is not allowed to deliver the goods without the cash. For my part I am very sorry about this anti-trust agitation, for even my wife does not trust me any longer. (Possibly because I'm always short.) I hope that this fully explains the matter so that you can understand it as well as I do. Yes, dear Algernon W., about as clear as mud.

GREAT CAMPING RIGHT CLOSE

The San Bernardino Mountains have some of the finest vacation grounds in the country, places that are little heard of outside of the valley below. There are few places in their natural state which can be reached as easily and present as many beauties as these mountains. From Sawpit Canyon in the west to Mt. San Bernardino on the east summer resorts, camps, trout streams and hunting grounds are abundant and excellent. Splendid mountain roads lead to all these places, and it is but a few hours' ride by auto from any town in So. California.

Starting at the west end of the range you find the beautiful Sawpit and Devils Canyons. The stream in the former flows down the desert side of the mountains, while the latter empties into the San Bernardino Valley. The fishing is fair in the headwaters of both streams, while deer hunting is fine on the ridges west of the canyons. Coming east on the crest along a good auto road you find splendid camping grounds at every turn. Water, fuel and suitable camping sites under big pine trees. As you go east along the crest you pass Skyland Heights, Squirrel Inn, Pinecrest, Strawberry Flat, Heaps Ranch, Hunsaker Flat and then come to Big Bear Valley, the sportsman's paradise. All these resorts are beautiful, cozy and comfortable in their rustic style.

The main auto road from San Bernardino reaches the top of the range one mile west of Skyland Heights. At that point a road branches west to Sawpit. Half way to Skyland two roads turn off to the north. The one on the right to the new and splendid Thousand Pines resort and Hunsaker Flat, the one on the left to Celestine Flat.

Celestine Flat. Celestine and Hunsaker Flats are among the finest camping grounds in the mountains and are seldom equaled and never surpassed anywhere. Both are mountain valleys, setting between two ranges and 4000 feet above the sea level.

Celestine Flat is two miles long and from one-half to a mile wide and practically level. Good water, firewood and all other camping privileges are plentiful and absolutely free. Running through the flat is Celestine Creek, which affords excellent trout fishing. Three miles to the west lies Sawpit. Following Celestine Creek you come to the Little Mohave, the finest trout stream in the western end of the mountains. This can be reached also by a trail that leads from the flat. It is an easy trail and an average walker can cover the three miles in an hour. Quail and tree squirrels are abundant in the hills back of the flat.

Going over the slight rise at the eastern end of Celestine Flat you come into Hunsaker Flat, which is much the same as the former. Hunsaker Creek, the headwaters of the Little Mohave in summer, and Dark Canyon giving the anglers plenty of good sport. It is but a few minutes' walk from the flat to Thousand Pines, where dancing, tennis, and plenty of other amusements will entertain.

Little Bear Valley lies about eight miles back in the mountains from Squirrel Inn and Pinecrest. The beautiful lake and numerous trout streams with great hunting makes this an ideal camping ground.

Big Bear Valley needs little mention. One day in this magic region with its big lake trout, game brook trout, deer, quail, ducks, squirrels and other game will win over the most ardent beach lover. A dozen trout streams wind around the mountains near the lake and it is a poor fisherman that cannot get the limit of good-sized trout. Free camping grounds or the hotel can be selected by the vacationist.

These are but a few of the magnificent camping grounds in the San Bernardino Mountains that can be reached by your own machine or stage lines running from the valley.

For grease spots turpentine may be used, but naphtha is best for delicate fabrics, as it leaves no mark, as turpentine is liable to do.

PEOPLE SHOULD GUARD AGAINST APPENDICITIS

Upland people who have stomach and bowel trouble should guard against appendicitis by taking simple buckthorn bark, glycerine, etc., as compounded in Adler's-ka, the German remedy which became famous by curing appendicitis. JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY because this simple mixture draws off such a surprising amount of old foul matter from the body. Mac the Medicine Man.

KIRK'S BOOTERY

Upland's Exclusive Shoe Store

The Right Piano or Player Piano and the Right Store

What assurance have you after you have purchased a piano on which a reduction of from fifty to one hundred and fifty dollars has been made that you have really bought at the bottom price? How are you to know that the next buyer who happens in will not get an additional twenty-five or fifty dollars' reduction? Does it seem reasonable to you that an instrument built to sell at a certain price can be actually sold at HALF PRICE, or at any of the other sensational reductions frequently advertised?

Bear in mind this fact—no merchant sells his goods at a loss, and the piano that is offered at a reduction of one-third to one-half off is a dangerous and unsafe investment at any price. It is built to deceive, sold by dealers whose policy is to charge all the traffic will bear and who do not hesitate to take advantage of the fact that the average buyer is unskilled in piano construction and the quality of materials.

The right piano or player piano is the product of a factory which has established its reputation by the merit and quality of the instruments it manufactures

The Right Store Offers You a Fair Price Every Day in the Year

Because we respect the intelligence of the buying public and because we know no other method than to deal fairly, squarely and out in the open, you may rest your case with us with the positive assurance that you will get the right piano or player piano in the best instrument possible at the price paid.

Terms may be arranged to suit your convenience.

H. B. TUCKER, Piano Dealer and Tuner

Service That Serves

Society

Mrs. James Locke Entertains—
Mrs. James Locke of Fourteenth street pleasantly entertained last Thursday with an excellent dinner and afternoon of fancy work. Those to enjoy the treat were Mrs. H. L. Natus, Mrs. Jess Busby, Mrs. John Busby and Mrs. Charles Wing.

Miss Holden Honored—
A very pleasant evening was much enjoyed Tuesday, June 30, when the Ontario-Upland telephone operators of Upland entertained with a linen shower in honor of Miss Fern Holden, who is soon to leave her co-workers and become a bride. The time was passed in hemming dish towels and pleasant conversation, after which the appointing refreshments were served. Those present were Misses Jessie and Minnie Hermes, Miss Nellie and Georgie Cooley, Miss Linsey, Miss Howe, Miss Clark, Miss Hess, Miss O'Brien, Miss Palmer, Miss Schumaker, Mrs. Whipple and daughter Carroll.

Mountain Trip Planned—
Without a thought of the unlucky 13, Mr. J. C. Mohl and his Sunday school class numbering 13, will be themselves Saturday, July 4, to the beautiful quiet of Stoddard's canyon, where they will enjoy an all-day picnic and also escape the irrepressible enthusiasm of Young America as he rises early in the morning to outdo his youthful neighbor in producing patriotic noises on that glad and glorious occasion. Those who will compose the party are Mr. J. C. Mohl, Miss Esther Kreibitz, Miss Minnie Schmidt, Miss Della Kintz, Miss Clara Voth, Miss Gertrude Eymann, Miss Edna Donner, Misses Lena and Kate Rose, Miss Clara Teschler, Miss Lizzie Brandt, Miss Hulda Isaac, Miss Helen Haury and Miss Susa Haury.

In Honor of Grandson—
A happy company of little folks are enjoying the afternoon at the home of Mr. and Mrs. Enoch Hunter's, who are entertaining in honor of their little grandson, Maurice Houses' seventh birthday anniversary. Maurice is a manly little fellow who came down from Fillmore Saturday with his mother, Mrs. Cora Houses, and baby brother to visit for a few weeks. Numerous games and happy frolics are being enjoyed on the lawn. Just before dusk the jolly group will be served with refreshments. The most pleasing feature of the afternoon being the lovely birthday cake and the novel favors of cannon crackers filled with candy. This will complete an altogether happy day for the following: Frederick Anderson, Wynono Anderson, William Bowden, Virginia Clark, Alice Carpenter, Elliot Bonman, John Thompson, Catherine Masten, Jack Masten, Margaret Maxwell, Randall Bryden, Lowell Wood, Morris Swan, Beth Wood and Maurice Houses.

Kitchen Shower—
The Philanthropic class of girls of the Methodist church surprised one of its members on Monday evening at the close of a short business meeting. The to-be married young lady is Miss Blanche Hawthorne, and the shower was for the kitchen. A number of useful presents were received. The members of the class present were Mrs. Flagg, Mrs. Glenn Atwood, Misses Agnes Davis, Sylvia Koster, Lucy Menge, Hazel Wright, Elsie Duley, Anna Rohrer, Maudie Colborn, Eva Brown, Dorothy Lindsay, Blanche Wright, Florence Mehl, Mary Harmon.

Mrs. Hartley Entertains—
Mrs. J. M. Hartley entertained the Shamrock club Wednesday afternoon, the ladies enjoying a delightful afternoon with their fancy work. Later in the afternoon Mrs. Hartley served her guests tempting refreshments of fruit salad, wafers and ice cream. The members of the club present were Mrs. Wieland, Mrs. Andrews, Mrs. Mildred Smith, Mrs. Price, Mrs. Chilson and Mrs. Eckman. The guests of the club were Mrs. Gifford of Lindsay and Mrs. Mattie Flowers.

Club Notes—
The Upland Woman's Club closed a very successful year last Friday by holding an all-day picnic at the club rooms. The tables were beautifully decorated with Shasta daisies and laden with a delicious repast, to which about thirty-five members of the club sat down.

After doing ample justice to the good things provided a short session of visiting and fancy work was indulged in. In order not to neglect the more serious matters which called them together a business session was held at 2 p. m., during which the affairs of the club were dealt with. The program for the coming year was discussed and various details attended to. A movement is on foot to establish a kindergarten in the public schools of Upland, and the committee appointed to secure names of mothers of children of kindergarten age reported almost the full number of names desired secured, after which proper application will be made. The Lincoln Penny Fund committee reported great success, the two divisions under the leadership of Mrs. Cable and Mrs. Manker, and later of Mrs. Rarick, giving interesting details of turning the penny into a large sum.

Enjoy Motor Trip—
A merry crowd of autoists, chaperoned by Mr. and Mrs. C. P. Fuller, enjoyed a fine ride Sunday to Riverside, journeying to Glenwood, where a most excellent dinner was served. Those to partake of this pleasure were: Mr. and Mrs. C. P. Fuller, Mr. and Mrs. C. E. Grier, Miss Eva Gerry, Miss Hazel St. Amant, Miss Ismay Chadwick, Miss Mildred Ware and Miss Maud Gerry, Messrs. Harold Moore, C. G. and Ralph Ware and J. L. Grahame.

F. H. Manker Host—

F. H. Manker celebrated his forty-third birthday by giving a stag party at his home Monday evening. The guests were members of the Upland Volunteer Fire Department and a few friends. Cards were enjoyed until a late hour, after which sandwiches, bread and butter, sandwiches, cake and coffee were served by the host, assisted by his son Bradford. A bowl of punch was on tap all evening. Before the guests departed they presented Mr. Manker with a genuine French briar pipe and a jar of tobacco.

On arriving at the Manker home the men immediately shed their coats because of the warm night. When ready to start home each man had some difficulty in finding the coat belonging to him, and up to 3 o'clock a. m. were still coming back trying to find their own clothes. This difficulty would have been obviated if men's clothes were as distinctive in color and cut as women's. For instance, had Mac's been the new tango orange or Meh's the beautiful green that most women are wearing for undershirts, and George's had been magenta, L. N. Kirk's with broad stripes going around, and so on. Anyway, the men present were Glenn Atwood, Elden Atwood, Harry Plum, Wesley Plum, Lyman Clark, Harold Mehl, Frank Clark, Ed Johnson, L. N. Kirk, Fred Froehde, Harold Stickney, H. C. Moore, Charles Devers, Bert Knoch, Howard Hough, L. Kromeyer, P. H. McQuillen, W. C. Cline, P. L. Purvis, M. L. Thompson, C. M. Sikes, J. F. Sawyer, George Cable, J. F. Miller, C. K. Francisco.

Entertains Fancy Work Club—
Mrs. George Cable entertained the Fancy Work Club on Wednesday afternoon. In spite of the warm weather a goodly number attended. The members are Mrs. R. B. Bordwell, Mrs. R. C. Norton, Mrs. A. L. Pells, Mrs. S. G. Moore, Mrs. John Rarick, Mrs. J. B. Goodrich, Mrs. L. R. Bradley, Mrs. J. F. Sawyer, Mrs. M. F. Palmer and Miss Sadie Sawyer.

Meeting Postponed—
The meeting of the Merry Wives Embroidery Club has been postponed from tomorrow to Friday, the 10th, when Mrs. C. M. Sikes will entertain.

Picnic Supper—
One of the numerous picnic parties to enjoy the cool evening at Stoddard's Canyon of last week was the party chaperoned by Mrs. Charles Stauffer and Mrs. B. P. Sewell, on Friday evening. After enjoying a bountiful picnic lunch the rest of the evening was spent in dancing, singing and pleasant conversation. The invited guests were Miss Eva Brown, Miss Anna Wilson, Miss Pearl Stauffer, Little Dorothy Stauffer, Miss Nellie Anderson, Miss Hanel, Miss Ruth Griffith, Miss Lillian Harnish and Miss Maud Monroe; Messrs. Charles Sick, Hamlet Moreman, Bus McNelis, Jess Monroe, Howard Hough, Harry Cavers, Elden Atwood, Amos Colborn, Hargy Plum and Fred Froehde.

MOUNTAIN HIGHWAY

(Continued from Page 1)

ment that the word "mountain" be included met with approval in the board, and it was finally an unanimous decision.

The 300 names came from all parts of the county and from farther away. Perhaps the most remote was from Spokane, Wash.

Clerk Mack ran through the letters, reading the names themselves without the names of the contestants. A large number of very slight variations from the name finally chosen were also submitted, and it is probably true that nearly one-third of those submitted included the name "San Bernardino" and variations of "crest drive" and "crest road" were almost innumerable.

The "San Bernardino Mountain Crest Highway" will be sufficiently completed by Saturday, July 4, that it will afford a good automobile road into Bear valley, via Pinecrest, Strawberry, Fredalba, Deep creek, the "Snowslides" peaks and Fawn-skin. A week later it will be in still better condition, for perhaps all of the smoothing up cannot be finished this week. But it was in such shape Sunday that Kirk Phillips went over it with one of his trucks and found no difficulty, while it is said that almost a procession of cars is now passing constantly into the valley by the crest route.

Supervisor Butler, who is spending some time in Bear valley, was in town yesterday and with Supervisor Brice went over the figures of cost, and Mr. Bright said last night that they will be able to complete it in a very satisfactory way out of the \$10,000 that was appropriated for that purpose by the board of supervisors two months ago.

One of the camps, that of which Greenway is foreman at the "Snowslides" will be closed today, the pick-and-shovel work being completed and what is left is team and scraper work. Greenway's gang did the work around the face of Strawberry, and was subsequently transferred to the "Snowslides" section of the road. Foreman Tillot will complete the team work on the latter, and it will certainly be finished before the end of next week.

JOKE ON HORTON

(Continued from Page 1)

said he, "a deputy in whom I have every confidence. I do not justify him in giving the drink of liquor to Covington, even when the latter said he was sick. But if Jones had been recognized as in full authority in the camp, Covington nor anybody else would have conducted himself as Covington did."

"Deputy Sheriff Jones was the deputy who got the evidence that cleaned up Blythe Junction, the worst hell hole the county has developed in years. I know he's all right, and I am not going to fire him for one lapse, when his record otherwise is as good as it is."

Since the announcement that the sheriff is responsible for the control of the prison camps, Supervisor Horton has lost his enthusiasm, although his campaign initiated to make it appear that the camps were a losing of a far when it was shown that the Mill Creek camp had been making the county money on its road work.

GRAMMAR SCHOOL TEACHERS

The board of trustees have engaged the following teachers for next year: Miss Fannie Noe, principal; Miss Maria Lindberg, Eighth grade; Mrs. Carrie May, Seventh grade; Miss Elsie Lhuillier, Sixth grade; Miss Ella Draper, Fifth grade; Miss Ruth Young, Fourth grade; Miss Ruth Riley, Fourth grade; Miss Emily Meritt, Fourth grade; Miss Bertha Watson, Third grade; Miss Elsie Adams, Miss Nelle Funke, Second grade; Miss Harriett Riley, First grade. Eighteenth-street school—Miss Gladys Riley and Miss Irma Coleman, Miss Edith Hitchcock, music; Miss Lela McClelland, drawing; Miss Fannie Hollins, sewing and cooking; Lew D. Smith, manual training; Miss Clara Williams, special. Plans are being made to put in a free kindergarten next year—the first half of the year to be devoted to food values. Miss Hollins will teach both cooking and sewing. Miss Nellie Funke will teach not only a grade, but will teach penmanship in all grades. The grades as assigned to teachers may be changed.

A NEW METHOD OF SCHOOL EDUCATION

Monrovia, a small but classic city near Los Angeles, has been "placed on the map," educationally, by its city superintendent of schools.

Thomas E. Thompson, formerly of Leominster, Mass., but now superintending the educational system at Monrovia, has for a number of years been working on a system of education which he has named "Minimum Essentials," and has developed its practicality to the astonishment of the educational world. So great is the revolution in the training of the youthful mind that the leading educators of America have witnessed the transformation with astonishment and the system is being introduced so rapidly in the schools of many states that Mr. Thompson's publishers have difficulty in meeting the demand.

Probably no better evidence of the recognition of the remarkable character of his work by highest authority could be cited than the fact that his name finds a place in the 1915 edition of "Who's Who in America," based upon his phenomenal method of training the child-mind, by a sort of missing-word puzzle.

In the Monrovia schools, where he has introduced his system and naturally given it the fullest possible test under his own supervision, the pupils as a rule have attained 100 per cent in the essentials of geography, history, arithmetic, punctuation and language, and they have

accomplished the work in one-fourth the time consumed by old methods.

Hits the High Spots

It is a device for screening the various subjects of the elementary course of study and holding out the minimum essentials, those few facts that all agree should be known certainly, unhesitatingly and irremovably by every pupil. It consists in a series of sheets in the various school subjects, embodying the fundamental facts that every pupil should know automatically.

These sheets are 7x10 inches in size, arranged in pairs: a buff sheet, printed two sides for study and drill, and a white sheet (a companion

Where the crowds go—there's a reason.

LOCAL NEWS

Mrs. Ben Klotz and mother, Mrs. I. A. Wheeler, of Cucamonga, have been enjoying the past week at a summer cabin at Camp Baldy.

Mrs. F. T. Lee and son, Harold, left for Pasadena Wednesday, after spending six months in Upland. From the Crown City they leave for their home in Chicago.

Mrs. J. C. Mehl is rapidly recovering from her recent illness. Rev. J. W. Kliever, president of Bethel College, Newton, Kas., was at the Mennonite church Sunday in the interest of the college.

Mr. M. E. Morgan is again at his old stand in the confectionery. He will be with Mr. Flinn during the absence of Mr. Chaffee.

Misses Elizabeth Jones and Viola Manker will attend the State C. E. Convention in Oakland as delegates from the Presbyterian C. E. of Upland. They leave on Tuesday.

Mr. and Mrs. W. H. Spicer left Frozen Cherry Pudding, fine for the Fourth. Order Friday from Flinn's Chocolate Shop.—Adv.—7tf

Wednesday for Yosemite Valley. They will enjoy six weeks of pleasure and expect to visit Fresno and Sacramento before their return.

Lymann Clark was the leading man in a heart-breaking scene the other day when he came riding his bicycle serenely down the left hand side of the street. Bert Martin, on his motorcycle, turned East on Tenth street at Second and ran into Clark with such a decided bump that he was thrown onto the sidewalk.

Clark's wheel was a little the worse for wear and Clark stated that it tore a small "portion of the outside cuticle from his ankle." It was suggested that he sue Martin for damages, but Clark believes a jury would consider that beauty was only skin deep and not give him much in the way of costs. However, he states that he will forgive Martin and also promise never to ride on the wrong side of the street again.

Order red, white and blue Ice Cream Bricks for the Fourth from Churchill's Phone 71.—Adv.—7tf

Councilman Anderson, this week deeded to P. W. Schmidt, a strip of land 2 inches wide and 187 feet long, said to be the narrowest strip of land ever changing hands in the City of Upland. It came about through the sale of five acres of land several years ago and then a sale of more land adjoining it. The result was that the deeds of the two pieces left in Mr. Anderson's name, a strip of land 2 inches wide between the two pieces of property and Mr. Schmidt wanted his property joined together, hence the deed.

Mr. and Mrs. G. W. Hurey and wife left Tuesday by auto for a trip to Yosemite Valley, where they expect to enjoy an outing for the better part of the summer.

Rev. M. Horsch returned the first of the week from the Western District Conference at Pasa Robles.

Messrs. L. N. Kirk, F. J. Mehl and James Goodban expect to retreat to Cucamonga Canyon Saturday and enjoy two days of outdoor life.

Mr. and Mrs. W. H. Clark enjoyed Sunday at Venice.

Miss Louise Green has as guests Miss Gertrude Carter of Fellows, Cal. Miss Myrtle Riley and Miss Lizzie Krieder will leave Saturday for Long Beach and expect to remain until Sunday evening.

One dip pen writes 600 words without filling, at Palls, the Jeweler.—Adv.—7tf

The following books have been put upon the shelves at the Public Library since the last issue of the News: Garden Book of California, Anzies; Motor Boys in Mexico, Young; Misadventures of Three Good Boys, Shute; Mother Carey's Chickens, Wiggin; Voyage of the Hoppegrass, Pearson; Two Little Savages, Seton; Kazan, Curwood; Kennedy Square, Smith; Passing of the Third Floor Back, Jerome; Queed, Harrison; Mother, Norris; Fortunes of Oliver Horn, Smith; Bird Notes Afield, Keeler; Cap'n Eli, Lincoln; Life of Frances Willard, Strachey; Mistress of Shenstone, Barclay; Cy Whittaker's, White; Wild Flowers of California, Parsons & Buck; July 2nd Youth's Companion; World's Work, Sunset; Seribner's, St. Nicholas, Overland; Good Housekeeping, Everybody and American Boy for July are on the tables. Watch the News.

Thomas Moran, a resident of Claremont, came up to Upland drunk Wednesday and by way of a little excitement ran his driving horse up Second avenue as fast as the animal could go. Motorcop Brogan of Ontario, who happened to be in this neck of the woods, brought the man back to the Justice Court, and after sobering up in jail over night, Judge Crane gave him twenty-five days in jail in which to think it over. The horse belonged to the Claremont livery barn.

35c Dishpan for 10c, Friday, July 3, with a dollar purchase, only one to a customer. Haury & Co.—Adv.—7tf

Mrs. Charles Stauffer and daughter Dorothy leave today for an extended visit in Los Angeles. Mrs. Stauffer is from Arizona and has been the guest here at the home of J. W. Stauffer and daughter. After visiting various places she expects to return to Upland for a brief stay before her return home.

Our Annual Special Sale begins Monday, July 6. Don't forget the time. Many special bargains. Haury & Co.—Adv.—7tf

Mr. Charles Krehbiel and family and H. H. Krehbiel and family of Pomona, were Sunday guests of Mr. and Mrs. D. S. Krehbiel.

Keep cool on the Fourth. Call up 1177 and place your order. Prompt attention and good goods are insured at Flinn's Chocolate Shop.—Adv.—7tf

Mrs. Webb Griffin of Phoenix, Arizona, is a guest at the home of Miss Pearl Stauffer. After a month's visit here she will leave for a visit at Balboa Beach. Mrs. Thomas Higley and little son are also guests at the Stauffer home and will enjoy the sunny clime of Upland for a time.

Mr. and Mrs. W. E. Harris of Bakersfield, will spend Sunday here the guests of Mr. and Mrs. W. E. Westland.

Miss Zoe Westland of San Bernardino, spent a part of the week here the guest of Mr. and Mrs. W. E. Westland.

Fine watch repairing, guaranteed at Palls, the Jeweler.—Adv.—7tf

Mrs. Trula Sewell of Los Angeles who has been visiting at the home of Mr. and Mrs. Nils Anderson returned to her home Tuesday.

Mr. and Mrs. C. F. Troeller visited with relatives at Bloomington on Sunday last.

Mr. and Mrs. Henry Klindt and son Robert, and Paul Troeller, visited at Palls Sunday.

Mr. George Dundas is here on business from Orosi, Cal.

Miss Lucile McClair who has been visiting friends in Upland for the past six weeks left Tuesday for Los Angeles.

Mr. and Mrs. G. E. Adams will enjoy the Fourth at Venice.

Misses Elsie and Elvia Burkholder spent last week with Mr. and Mrs. Grant Gillette in Los Angeles.

Mr. and Mrs. J. E. Sargent and daughters, Misses Eleanor and Catherine, will visit at Redondo the Fourth of July.

Order red, white and blue Ice Cream Bricks for the Fourth from Churchill's Phone 71.—Adv.—7tf

Mr. and Mrs. D. C. Funke are re-joining over a baby boy the stork left at their home June 30.

Old Glory will now swing from the top of the Commercial National bank, the Upland Hardware Company having placed a flag pole on the building during the week. Fourth of July will witness the initial appearance of the new flag.

Mrs. Thos. Bryden and daughter Esther of Venice have been spending a couple of weeks here at the Chad Francisco home.

Mrs. Thos. Nugent and son motored up from Venice last Friday so Mrs. Nugent could attend the Woman's Club luncheon at the club rooms.

W. H. Leeson has just received a panorama view of the Woodlake section, where many people from this district are interested in ranch land, and the view is certainly one of the finest seen here in many days. The views show some 14,000 acres of land surrounding the beautiful lake, which is three miles long and forty feet wide, is a most attractive spot, and a drive about the edge of the lake has just been constructed.

L. S. Allen, who has just passed his eightieth birthday, and who is known among many friends as "Uncle Allen," had a surprise post card shower on his birthday when 150 post cards came to his mail box from some fourteen different states. Mr. Allen desires The News to thank his friends for remembering him on that date. Mr. Allen is still in excellent health and often spends several hours with the hoe on his ranch.

Moving day seems popular with the W. W. Kirk family, as owing to some change on the Hawthinson place Mr. Kirk will have to move and is looking for another good home in Upland. The Hawthinson place surely shows that Mr. Kirk knows how to take care of a place.

B. L. Decker of the Upland Feed and Fuel Company met with a serious accident when the bit broke in the mouth of one of the horses he was driving in a team on Sixteenth street Monday. A wagon started to pass Mr. Decker, and as it made considerable noise, his team started on a run. He soon had them under control and just as they were quieted down again a bit broke, with the result that the team ran into a telegraph pole, throwing Mr. Decker to the ground and breaking his right leg just above the ankle. He is now in bed and getting on fairly well.

Silver Cream, best silver polish at Palls, the Jeweler.—Adv.—7tf

Mrs. Amelia Tays had as her guests last week her daughter and husband, Mr. and Mrs. C. K. Fuller of Pasadena, and Mrs. Margaret Gehrett of Los Angeles, who came out to attend the Lane-Mahurin wedding. After enjoying a pleasant stay with Mrs. Tays they returned to their homes on Tuesday.

K. L. McClair and daughter Sarah, and son Charlie, and Mrs. George Winn and daughter, Esther and son John, expect to enjoy an old-fashioned picnic dinner on the banks of the Santa Ana River the Fourth.

Mr. G. G. Isaac and family and Mr. and Mrs. Toews and family of Alta Loma autoted to Long Beach Sunday and enjoyed the cool breezes of the ocean.

Special for the Fourth—"Frozen Cherry Pudding," at Flinn's Chocolate Shop. Place your order tomorrow.—Adv.—7tf

Mrs. Catherine Isaac of Alta Loma has purchased a new Buick car.

An "over the Fourth" house party will be enjoyed at Balboa Beach by Mrs. R. B. Bordwell, Mrs. H. O. Blohm and Mrs. Ernest Mehl, who left Wednesday to take possession of a comfortable cottage where they will await the arrival of Miss Amanda Gerry Friday and Messrs. Mehl, Blohm and Bordwell who will auto down Friday evening and enjoy over Sunday visit.

Allen Mahurin left Wednesday for the summer at Perris.

Miss Marie Greenleaf went to Los Angeles Wednesday where she will enjoy the summer vacation until fall when she will return and take up teaching again in Ontario.

C. F. Troeller has taken out the archway in his store and built a new balcony, this enlarges his store and improves the appearance greatly.

C. W. Churchill has enlarged his ice cream parlor and installed an attractive air purifier, thus giving more comfort to his patrons.

J. H. Flinn left Wednesday on a business trip to San Bernardino and Los Angeles.

Order red, white and blue Ice Cream Bricks for the Fourth from Churchill's Phone 71.—Adv.—7tf

Miss Mildred Kingsbury visited with friends in Los Angeles Sunday and Monday. Miss Maud Kingsbury of Exeter is here for the summer and will enjoy being with her sister for several weeks.

Mr. Tom Smith was able to leave the hospital Monday, and is reported to be recovering nicely.

Mr. and Mrs. Fred Holz and Mr. and Mrs. S. E. Couch left early on Wednesday morning for Yosemite to enjoy a month's vacation.

Mr. and Mrs. Spaulding, Miss Jessie Powell and Mr. Avery Solenberger of Pasadena were in the city Tuesday to attend the funeral of Mr. Jesse Byer.

Mrs. C. H. Goyen of Pomona has been visiting her mother, Mrs. S. J. Brooks, this week.

Mr. and Mrs. W. B. Morse of Los Angeles are visiting at the home of Mr. and Mrs. G. W. Kirk on West Tenth street.

8. Selection—"Geo. Washington Jr." Cohen
9. Finale.

MOTOR SPEEDWAY FOR SOUTHERN CALIFORNIA

A great motor speedway for Los Angeles may be the result of the present opposition to road racing expressed by the Supervisors of this county as well as Los Angeles and Orange counties.

It is claimed that Southern California has outgrown road racing. There was a time when it was a small matter to close hundreds of miles of public highway and turn it over to the promoters of a speed contest; but that time is past, according to County Supervisors and number of prominent men of the

(Continued on Page 8)

MEETSTRAGIC DEATH

(Continued from Page 1)

and from there was taken to a doctor's office at Whittier, where he lived for nearly half an hour.

Lee states that they were riding about eighteen miles an hour and he believes the cause of the accident was Byer's becoming confused when the motorman whistled for the crossing, as under ordinary conditions he had plenty of time to get out of the way.

The body of Byer was brought from Whittier Monday and funeral services held from the Brethren in Christ church Tuesday afternoon at 2 o'clock.

EDUCATION

(Continued from Page 4)

sheet) for quick-written-test sheet contains the same subject matter as the study sheet, but is arranged in different order. It is more than a series of tests—it is a system of instruction. It not only locates the trouble but prescribes the remedy, and determines exactly how efficient the teaching has been. Speed is not the primary object of these tests; they are measures of efficiency. Speed is the "by-product" of thorough knowledge.

The material is unique—it can not be compared with other tests because there is no basis of comparison. While "Minimum Essentials" assemblies for the teacher in convenient form for drill and test the few essential facts which the public has a right to demand shall be surely and irremovably learned; while it provides for the superintendent or principal a definite way of determining whether these essentials are certainly being taught and determines just how efficient the teaching has been, yet the unique device and plan of Supt. Thompson's system is the important feature.

This is the Plan

To describe a sheet, take for instance No. 25, the oral or study sheet on punctuation. Grammars cover eighty or a hundred pages on the subject, but in Supt. Thompson's arrangement the whole subject is covered in the one sheet, and the unique scheme is shown by the following questions or statements taken from this sheet.

"Begin Mr. Mrs., and Miss with ()"

"Put a period after Mr. and Mrs. but not after ()"

"Begin the names of the seasons, as 'autumn,' with ()"

"In ending a letter as 'Truly yours,' 'yours' begins with a ()"

These sentences show the general plan of the language papers; the pupil in every case supplies the important, missing word or answer. In the oral study sheet he is required to give the answers rapidly and without hesitation; in the quick-written test sheet he is required to write the answers rapidly and without hesitation.

The time element is very important; knowledge and rapidity almost invariably are found together. Supt. Thompson claims he can easily cover the eight years of the grammar school course in six years; that he can cover a subject such as geography in a few months, and best of all, in these facts that every one agrees should be taught, the pupils attain about 100 per cent.

The Western School Journal, in speaking of the system, says that the standardization of English teaching is the crying need of the schools and that Mr. Thompson has met the need.

Dr. A. E. Winship, editor of the Journal of Education, perhaps the best-known educator in the country, says: "Mr. Thompson has blazed an entirely new trail. He places an emphasis on essentials that we have never before known, and has rendered to the world as well as to the profession a distinct and large service; the work of his pupils is probably unparalleled anywhere in the world."

Takes in Iowa

Some conception of the interest of educators in this scheme is evidenced by the events in a single state—Iowa. In a little over two months this material was introduced into 140 towns and into sixty-four of the ninety-nine counties in the state. So great an interest has grown up in New Mexico that it has been decided to arrange a state contest based upon the papers, the finals of which are to be held at Albuquerque at the next meeting of the New Mexico Educational Association. President Hill has appointed a committee to plan and conduct the contest.

A test has been made in the fourth grade in a large city school system, everywhere recognized as one of the best in the United States (and only modestly deers mention of its name) in which Mr. Thompson's system had never been used. The average time consumed by the pupils in answering the questions was 34.6 minutes and their average percentage was 72.7. Another test was made in the Monrovia schools, with the notable contrast, that the third grade produced the answers in 3.5 minutes, attaining an average percentage of 98.7.

It is unquestionably one of the greatest educational contributions of the century.

The growth of Phoenix, Ariz., is indicated by the platting of thirty-seven subdivision of suburban property embracing 1789 acres in nine months.

Try Worko

The Gas Engine that will not get out of whack has yet to be built. This lack of vitality is shown in various ways. In automobiles it presents itself mostly in a knocking when taking stiff hills or pulling a heavy load.

Carbonized cylinders are the trouble. The cylinders will not be the same again until they are free of carbon encrustation.

WORKO is a small tablet sold in boxes. To use it remove a spark from each cylinder of your engine—all cylinders at once—put two tablets of WORKO in each cylinder and replace the plugs. That's all. The engine does the rest.

Boxes \$1.00 and \$2.00

First Door South of the Upland Hardware Company

NEW RAILWAY FOR THE DESERT

To aid in the development of the vast resources of the northwest corner of San Bernardino County, the American Trona Company will this week take steps to purchase equipment to maintain for the public a regular train schedule from Mojave, on the Southern Pacific, over the aqueduct line of that company to Garden City, and thence over the new Trona line to Seales Lake.

The train service will be not only for the benefit of the Trona Company's own interests, for it is investing many millions in the region, but for the other mining operations. The region is the richest in valuable chemicals in the County.

Attorney Makes Statement
That was the announcement made by Attorney Joseph K. Hutchinson of San Francisco, head of the legal department of the great Trona interest.

"The company will this week take steps to purchase a gasoline motor car," Mr. Hutchinson said, "the same kind of equipment the railroads are operating in the San Joaquin Valley and similar to that used for a short time by the Santa Fe here.

Owing to the hot weather the force of men is now reduced. We are working about 450 men, 300 on completing the ballasting on our railroad and 150 at the fields.

"The company has just completed quarters for the men at the lake, and if the public could see the building, which will accommodate 250 men, it could realize in what manner the Trona company is to care for its employees. The building is of concrete, circled by a veranda of arches, similar to the architecture at Stanford University. On the interior is a big open-air court.

This construction will relieve the heat conditions. Another building of the same style will be started with accommodations for 250 men.

Plan Enormous Capacity
"It is the plan of the company to construct its plant so that it will be capable of handling 2,000,000 gallons of brine from the lake. The plant will be in five units, of 400,000 gallons each, and the first is being completed. This is the experimental unit.

Completing Water Developing
"We are now completing the water development in the Argus Mountains, and it will be piped to the lake for the domestic purposes."

Baron Alfred Von der Ropp, president of the American Trona Company of New York, has just completed an inspection of the big operations of his company, which is to become the greatest private industry in San Bernardino County.

The company owns 40,000 acres in the Seales Lake region, which it is to use to mine the potash, soda and other chemicals that will move out of Seales Lake for the market by the railroad. The American Trona Company, by its operations, has broken up the German potash trust, and the result will be a vast drop in prices.

In most European cities a haircut and a shampoo costs 6 cents, and in parts of London a shave costs four cents. In some Italian cities 1 cent is charged for a shave and 2 cents for a haircut, and in Turkey barbers take their entire pay in tips.

In India your barber calls at your house and shaves you every morning for \$2 a month.

In China the barbers carry stools, small tubs, razors and scissors about the streets, stopping on the sidewalk to perform their work, just as scissors grinders do in America.

—New York Sun.

NOTICE OF MEETING OF BOARD OF EQUALIZATION.

NOTICE IS HEREBY GIVEN, that the Board of Supervisors of the County of San Bernardino, State of California, will meet on the first Monday in July, 1914, to examine the books and equalize the assessment of property in the County of San Bernardino, and will continue in session for that purpose, from time to time, until the business of equalization is completed, not later than the third Monday in July, 1914.

No reduction will be made in the valuation of property unless the party affected thereby, or his agent, makes and files with the Board a written application therefor, verifying the same by his oath, and the facts upon which it is claimed; such reduction should be made, and unless such person or agent making application attends and answers all questions pertaining to the inquiry.

SAMUEL PINE,
Chairman of the Board of Supervisors.
Attest: Charles Post, County Clerk and Ex-officio Clerk of the Board of Supervisors. By R. H. Mack, Deputy. 513

NOTICE TO CREDITORS

Estate of Amos Teschler, Deceased.

Notice is hereby given by the undersigned, Administratrix of the estate of Amos Teschler, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within four months after the first publication of this notice, to the said Administratrix at the office of A. H. Lawrence, in Upland, California, the same being the place for the transaction of the business of said estate, in the County of San Bernardino, Calif.

AMANDA TESCHLER, Administratrix.
Dated at Upland, California, June 8, 1914. 415

NOTICE OF ASSESSMENT

Canyon Ridge Water Company—Location of Principal Place of Business, Upland, San Bernardino County, California.

Notice is hereby given that at a meeting of the Board of Directors, held on the 15th day of June, 1914, an assessment of \$5.00 per share was levied upon each and every share of the subscribed capital stock of the corporation, payable on or before the 15th day of July, 1914, to John N. Huehn, the secretary of the corporation, at the residence of John N. Huehn, 45 Second Avenue, Upland, San Bernardino County, California. Any stock upon which this assessment shall remain unpaid on the 15th day of July, 1914, will be delinquent, and advertised for sale at public auction, unless payment is made before, will be sold on Saturday, the 18th day of August, 1914, to pay the delinquent assessment, together with costs of advertising and expenses of sale.

JOHN N. HUEHN, Secretary.
June 15th, 1914. 414

COMPENSATION ACT FAILS IN PURPOSE

The workmen's compensation act, good thing where it applies, adopted by the last Legislature with a great hooley and now the subject of most of Governor Johnson's eloquent appeal for votes, is now found "not to apply."

The Industrial Accident Commission, created by the administration that alleges in loud tones it is time the enemy of the Southern Pacific and the friend of the people, has made the workmen's act look like a sieve.

The workmen's compensation act was the hope of all the working men.

This is what it was announced in San Bernardino Monday that the Industrial Accident Commission had ruled:

That George Smith, special officer, accidentally shot while attempting to arrest hoboes at Colton, was engaged in keeping the trespassers from boarding a train from New Orleans; that the train was an interstate one and that Smith, while engaged in chasing hoboes, was consequently engaged in interstate commerce, and his case is therefore beyond the jurisdiction of the Commission.

Foot Crushed Off

That Harry Sherman, run down at a Rialto crossing by a Santa Fe handcar and his left foot crushed off, was not in the actual employ of his employer, although he had been ordered to hurry home for something to eat and hurry back to get out a rush job. Sherman was hurrying back to work when he was struck by the handcar. His hurry probably was one cause of the accident.

Splits Hair Lines

The Commission says that at that particular moment, although under orders of his employer, he was not actually employed.

And Governor Johnson says the act is the friend of the working men and the enemy of the railroads.

Both cases are vital, for they pass on vital points.

Practically every railroad man is barred from the benefits of the workmen's compensation law for the railroads operating in San Bernardino County are all interstate railroads.

The Commission gets down to the hair line to rule that Smith was chasing hoboes who intended to ride an interstate train, and that he was consequently engaged in interstate commerce, employees in which service the workmen's compensation act does not protect.

What do these men get, if Smith, who was chasing hoboes, was engaged in interstate commerce; the mechanic whose finger is cut off as he worked on a nut for an engine that hauls interstate trains; the track man hit by a train as he is fastening the bolts in a rail or replacing a tie on the track that carries an interstate train; the switchman who loses his leg while coupling onto a car that it about to be placed in an interstate train; the icing man who is struck by a chunk of ice about to be placed in a car of fruit that is to be placed in an interstate train; or the operator hit by a freight train as he attempts to hand a "19" order to the engineer of an interstate passenger train? Help yourselves—there are hundreds just like these.

The ruling on the Harry Sherman case opens up just as many disconcerting possibilities. What does the man get who during his noon hour tries to stop the team of his employer from running away and gets a broken leg? Or the newspaper reporter called out of bed to get out an extra who is hit by a street car on his way to the office? Or the clerk in the store who responds to a midnight fire alarm and is burned trying to save the books? There are hundreds like these.

Doom for Railroaders

The Commission's ruling on the George Smith case is a death knell for the hopes of hundreds of railroad men, for most of them are engaged in work judged from the Smith case, which the commission decides is in fact interstate commerce.

The findings of fact of commission, signed by A. J. Pillsbury, Will J. French and Harris Weinstein, read:

That on January 13, 1914, the applicant herein, George W. Smith, was injured by accident while in the employ of the defendant Southern Pacific Company as a special officer in its yards at Colton, Cal.

That on the night of said January 13, 1914, the applicant boarded the tender of train No. 9, which is a through passenger train from points without the State of California to points within the State of California and was carrying interstate mail, express and baggage. As train No. 9 moved out of the Colton yards the claimant boarded the tender of the locomotive to ride the train a short distance until it began to get well under way and to keep off trespassers. When the train had moved under way the applicant saw three men endeavoring to board the blind baggage platform. He shouted to them; they dropped off the train and he left the tender and was following them to drive them off the company's property, when he stumbled and his revolver fell from the holster and was discharged, inflicting a flesh wound in his left thigh. Said accidental injury occurred while the applicant was performing a service growing out of, incidental to, and in the course of his employment.

In Interstate Employ?

That the applicant, George W. Smith, was at the specific time of his injury employed in interstate commerce, and the particular service being rendered by him at the time of his injury was a service in such interstate commerce; that the defendant Southern Pacific Company was also engaged in interstate commerce at the specific time of the injury suffered by the applicant; that neither the applicant nor the defendant was at the time of the accident subject to the compensation provisions of the workmen's compensation, insurance and safety act of the State of California, nor to the jurisdiction of this Commission.

Attorney George H. Johnson represented Smith in the hearing.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical faculty. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SPEEDWAY

(Continued from Page 5.)

state. Throughout Southern California the paved highways are burdened with traffic. Suburban cities have grown up and there are numerous small towns dotted along every well-traveled road.

In few words, the population is too large for the road racing. The officials are known to be against speed contests on the highways that have been built for touring and commercial traffic. A great motor speedway is said to be the only solution of the problem.

Cucamonga

Mr. and Mrs. Robert Owen of San Francisco, who have been visiting Mrs. Owen's mother, Mrs. E. W. Reid of Alta Loma, returned to their home the latter part of last week.

Mrs. Roy Hitt and children, of Los Angeles, are visiting Mrs. Hitt's parents, Mr. and Mrs. F. R. McLellan. Mrs. Lucy Demens and daughter, of Los Angeles, are visiting Mrs. Demens' parents, Mr. and Mrs. C. F. Thorpe.

Ernest Bent has resigned the secretaryship of the Alta Loma Citizens League on account of plans made to move to Los Angeles and go into business.

Mrs. Converse of Alta Loma returned to her home last Friday after a pleasant visit to her brother and his wife, Mr. and Mrs. Charles Converse of Los Angeles.

Ernest Goetz, who underwent a serious operation in New York city, is reported as making a good progress toward recovery, though it will be some weeks before he can resume his occupation.

After guarding the division box, owned jointly by the Cucamonga Water Company and the Old Settlers Water Company for three weeks, Walter Hirst resigned the job and Tom Rowe was appointed to hold down the cover.

J. W. McKee has secured the contract for carrying the mail on the route between Alta Loma and the Santa Fe station for the next four years. Mr. McKee's bid was at first rejected as being too high and new bids were advertised for, but no better bids were made and the post office officials accepted Mr. McKee's offer. The new parcel post system, with consequent heavier mails, has caused the bidders to demand higher pay.

The approaching primary election has caused a stir in local politics, and nomination petitions were circulated this week for W. J. Kincaid for the office of supervisor, Walter Hirst and Frank M. Caldwell for Constable and W. C. Belden for justice of the peace. The necessary number of names were quickly secured and the papers will be filed with the county clerk in a few days.

Miss Eleanor Albert suffered a serious mishap last Sunday in Cucamonga creek canyon, wrenching her ankle so badly that she was unable to walk, and it was thought that some of the bones were broken. She is confined to her home this week, and it will be some days before she can use the injured foot.

Camp Baldy seems to be a favorite resort for Cucamonga people as the following named parties are enjoying camp life there this week: Mr. and Mrs. C. T. Brown, Miss Julia Brown, Miss Clara Von Sten, Mrs. W. H. Horst, Miss Madge Horst, Miss Kate Morsinger, Mrs. E. C. Klotz, Mrs. Wheeler and Rachel Bent, Charles Morsinger and Mr. and Mrs. H. O. Ward will join the party on the 4th and remain over Sunday.

HEREDITARY ACCIDENTS

Now and then one comes across cases of what might be termed hereditary accidents. A groom in the employ of a gentleman living at Dyserth, North Wales, was kicked to death by a mare belonging to his employer, who at once got rid of the brute. He then took the son of the dead man into his service in a similar capacity as his father. Almost exactly a year later the son was kicked and killed by a foal of the mare which had killed his father.

At the French railway station of La Ricamarie, a young man named Benoit Fontville was employed as shunter. One day in September, 1903, he was crossing the rails just in front of a couple of carriages pushed by a locomotive when he was seen to stop suddenly. Before anything could be done to help him the carriages and the locomotive had passed over him, killing him instantly. On examination, it was found that the heel of his boot had caught between two rails at the points. At the inquiry a witness stated that the father of the deceased had met his death in an exactly similar manner on the selfsame spot.

On December 20, of the same year, an American named Samuel Turner was killed at Port Norris, N. J., in the same fashion as was Fontville, by getting his heel caught in the frog of a switch. Ten years earlier his father had come to his end by the same means at the same place, and the identical fate befell his grandfather, who was trapped in the same switch in the year 1883. In August, 1906, two friends, William Connolly and Patrick Cantwell, were drowned by the upsetting of a float on the Grand Canal near Tullamore, in King's County. These two men had been born on the same day, thirty-six years earlier, they were baptized in the same water, and they were buried together after a joint funeral in the churchyard at Raham—The Strand.

cial traffic. A great motor speedway is said to be the only solution of the problem.

The idea of a speedway in Los Angeles was first advanced by A. M. Young, more than two years ago. Shortly after the 1912 Santa Monica road races, which were managed by Young, the local dealer went East to witness the 500-mile race on the Indianapolis Speedway and study of automobile racing conditions.

At that time Young realized that racing on unprotected public highways was soon to be a thing of the past in this section. Aside from the danger to life and limb, there was the legislative side of the proposition.

A promoter of races never felt safe. An accident on the course during practice might result in the revoking of the permit at the last moment.

HE RESIGNS AFTER 16 YEARS SERVICE

(Continued from Page 1)

will carry the institution on along the lines of a well-conducted bank.

R. F. Lemon, a man of several years' experience in the banking business, purchased a large block of the bank's stock, as did R. C. Norton, Mr. Lemon being made cashier of the bank, while Mr. Norton was made vice-president and H. C. Moore assistant cashier. Mr. Palmer took the presidency at that time, but during the past few weeks has decided to do away with business cares

M. F. PALMER.

entirely and to devote his time to ranching interests and to enjoying home life here.

The resignation was before the board of directors last Saturday, the board accepting same reluctantly, yet knowing it for Mr. Palmer's best good, and in the resolution passed, most heartily thanked Mr. Palmer for his services.

The presidency of the board is to be left vacant for some time, according to the bank officials, in honor of Mr. Palmer's many years' of faithful service to the bank. Mr. Palmer stated to a News man Wednesday that it is not his purpose to retire from active business, but after six months of complete freedom from business cares he will again join with business men in making Upland a better and bigger city.

CARD OF THANKS

We desire to express our heart-felt thanks to our many friends, who so greatly sympathized with and helped us by kindly tendering the use of so many automobiles, sending so many beautiful floral tokens of love and respect and helping in so many other ways during our recent sad affliction in the loss of our dear son and brother. May God bless you all.

MR. and MRS. J. H. BYER
And FAMILY.

JOHN D. FREDERICKS, CANDIDATE FOR GOVERNOR, TO SPEAK HERE MONDAY

On Monday at 1:30 p. m., John D. Fredericks, Republican candidate for Governor, will be in Upland and address the people at the corner of the Commercial National Bank in the shade of the pepper trees.

Fredericks hardly needs an introduction to the people of this city, as he has long been a resident of Southern California and has many friends and acquaintances here.

On the automobile trip throughout Southern California, Fredericks is

At the Churches

Presbyterian Church

The Sacrament of the Lord's Supper will be postponed till next Sunday, the 12th. The subject, for the morning service for the 5th is "My Father's Business." For the evening, "Give ye them to eat." Fourth of the series, "Whatever He saith to you, do it." The evening services will be half an hour later than heretofore, beginning at 8:00 o'clock instead of 7:30.

Sabbath school begins at 9:45. C. E. at 7:00. Subject, "Twelve Great Verses, VII, The Friendship Verse"—Prov. 27:9.

St. Mark's Episcopal Church

Euclid Avenue and F Street. Fourth Sunday after Trinity. Church school, 9:45 a. m. Morning service, Holy Communion and sermon, "True Patriotism," 11 a. m.

Evening service and sermon, "Our Country," 7:30 p. m. Rev. George E. Swan, B. D., Rector.

Christian Scientist

First Church of Christ, Scientist, of Ontario, hold regular services in the church edifice, West B Street, every Sunday at 11 a. m. Subject, "God."

Wednesday evening, testimonial meeting at 7:45. A reading room is maintained in the same building, which is open to the public daily, except Sunday, from 2 to 4 p. m., where the Bible or authorized Christian Science literature may be read or purchased.

Sunday School at 10 p. m.; pupils up to the age of twenty years are admitted.

Methodist Church—July 5, 1914

Sunday school, 9:45. Preaching subject: "The Throne of the Heavenly Grace."

Orange Belt Emporium, Pomona

at Claremont, a series of Sunday evening services is to be held throughout the summer months. Last year these services held in the Greek Theatre proved very popular and people for many miles around Pomona College motored to these services each Sunday evening.

Following will be the speakers for the month of July.

The preacher July 5th will be the Reverend Morris H. Turk, Ph. D., Junior Pastor of the First Congregational Church, Los Angeles. Other preachers for the month of July are—July 12, the Reverend Robert Freeman, D. D., Pastor of the First Presbyterian Church, Pasadena; July 19, the Reverend Arthur S. Phelps, D. D. for sometime Pastor of the Central Baptist Church, Los Angeles; July 26 the Reverend Russell F. Thrapp, Pastor of the First Christian Church, Los Angeles.

RESOLUTIONS OF CONDOLENCE

Be it resolved, that the Neighbors of Upland Camp, No. 9097, extend their heart-felt sympathy for the bereaved family and friends of our late neighbor, C. O. F. Carlsen, who was suddenly taken from our midst. May the hand of kindness guide the future and may kind words soothe the wounds of our deceased Neighbor's family.

Signed by Committee.

G. T. AMES.

H. C. SONDERLICHER.

E. M. LANE.

G. T. AMES, Clerk.

Modern Woodmen of America. 711

Say, Friend

Don't You Think It

Good Policy

To buy right here in your own home town? You will find the quality of goods, as well as the prices, just as fair as in any city in the valley. Then there is always the opportunity to easily correct any errors or to exchange goods that might not be quite satisfactory.

The UPLAND FURNITURE COMPANY will make every effort to satisfy the people, whose interests are our interests and on whose favors our prosperity depends.

GOOD BREAD

That Means Burkholder's Boston Bakery Bread

We have installed new methods of baking at our Boston Bakery, and we are thus enabled to furnish you with a very Superior Quality Bread, as compared to that made by any of the old-time methods. You will always find

Burkholder's Bread on Sale at All First-Class Grocery Stores

and always fresh, every day. Always be sure, when you're buying Bread, to specify

Burkholder's Bread
Then You're Always Sure It's Good

Our line of Pies, Cakes, Confections, and all Bakery Goods is also sure to please you. It is our aim to give the best service possible, thereby being worthy of your patronage, as you will find our goods second to none in every particular.
